## Care for "Old Ceilings"

### Old Ceilings Collection

---

Dear Customer,

Care for your "Old Ceiling" Collection like any other piece of art. We recommend canned air for dusting- available in any hardware store. If fingerprints need to be removed -spray Windex onto rag or towel then wipe off fingerprints. We do not recommend spraying Windex or any other cleaning solvents directly onto acrylic. Because we use a cleaner made specifically for framers acrylic that helps protect it, we recommend not touching acrylic just dust by using canned air.

Over cleaning with window cleaner may harm the acrylic glass.

Like any Piece of art please keep out of direct sunlight and moist areas.

Handle with care, acrylic glass can scratch very easily.

Indigo Hands Design Company will not be responsible or liable for any and all personal or property damages or claims resulting from improper use, handling and / or cleaning of its products.
