Care for Exposé

Exposé Collection

Dear Customer,

As the Tile and Real Silk Matting are exposed please be extra careful with the Art. Moisture and an excess of Sunlight can weaken Silk. When possible, display your art in a cool dry place.

The Tile has a protective coating over it; it can be dusted with a dry soft cloth or towel. To dust the Silk matting use a dry cloth that will not leave any residue. DO NOT USE WATER OR ANY LIQUID SOLVENT TO CLEAN MATTING OR TILE. We recommend using a Feather/ Electrically charged Duster. A Hair Dryer can also be used on the COOL SETTING to blow off dust. Clean your art periodically to prevent build up, but do not over clean.

Irregularities and variations in the weave of Silk are characteristics of the fabric. Because each tile is Hand-Painted, Tiles may vary.

Please handle with caution the Tile may be sharp; contact us with any questions.

Indigo Hands Design Company will not be responsible or liable for any and all personal or property damages or claims resulting from improper use, handling and / or cleaning of its products.
